Platform Width x Length
 1000 x 1000 mm

... easier access for your maintenance, repair and installation requirements.

- Fully welded with a raised expanded metal floor, located and welded into a formed kickboard surround.
- Rear RSA frame with wire mesh panels together with tubular handrail.
- Hinged entry gate with spring return and a spring loaded retention bolt - holds the gate in the closed position.
- Platform locks onto the lift truck forks with threaded screw jacks.
- Manufactured according to Health & Safety guidance note PM28 Finish: Safety yellow enamel paint.

Please note: In the interests of safety, we do not specify standard fork location details. Each platform will be manufactured to your own forklift truck specification.

On all orders please specify:

1. Length of fork
2. Width and depth (cross section) of fork
3. Maximum standard distance between forks

Handrail height:	1010 mm	O/all depth	1020 mm
Total height :	1925 mm	Gate width	510 mm
O/all width:	1020 mm	Weight (approx.)	78 kg
(excl. screw jacks)		Capacity:	350 kg

2 swivel, 2 fixed castors, 100mm dia. nylon wheels.
 Provides for ease of movement and storage when not in use.
 Increases height by 145 mm
